Dear [Recipient's Name],

I am writing to you regarding the social work that we have started in our community. It is about helping the underprivileged people by teaching them different technical and mechanical skills for free so that they may be given the potential to earn well for themselves. Through this, we'll be able to diminish the wide class system in our society. Families and not only the individual could be supported through this. Because we cannot do this on our own, your assistance is required. According to our data, you're a software engineer. We'll be highly grateful if you spare your Sundays and teach some software uses to the young member of the community that we have planned to assist. By sharing your knowledge and skills with them for free, you'll open opportunities for them to become self-sufficient and support their families. You're requested to consider this request and inform us at our number if you are willing to join us. Our number is [123-4567-8901] Thank you!

Sincerely,
