Dear [Recipient's Name],

I have been a regular physician of Mr. Joseph's family for over 15 years. I am writing this referral letter in reference to their transfer to a new state due to their work issues and thus, it is impractical for them consult me anymore.

They do not have any family history of congenital diseases. They are a healthy family, although Mrs. Joseph gets seasonal cold and have an acute depression and anxiety disorder. I will email you all of their health records as soon as possible.

I have faith in your ability and I am sure that you will prove to be an even better physician to this family. You can contact me on my email address in case of any queries. Thank you very much.

Yours Sincerely,
