

# Apology Letter for Spreading Disease

[Your Name]

[Address]

[Date]

Dear [Recipient Name],

I had a very good time with you over coffee and reading our favorite novel together. I was feeling some weird marks on my face and skins that day. Later, when I went to the doctor, I found out that I was infected with [disease name].

I learnt from my doctor that it is a contagious disease which can be transmitted easily to anyone in close contact. After knowing this, the first person who came to my mind was you. I am very sorry to inform you about this contagious disease and I feel very embarrassed also. But if I would have been aware about my health conditions before, I would have never met you.

I would advise you to see the doctor as soon as possible and try to get the necessary tests to know if you have contracted the same disease. I am ready to pay for your tests and the medication as well. I will wait to hear from you soon so that I can share my doctors advise with you as well.

Meeting you has always been a pleasure. I hope this incident will not become an obstacle in our relationship. Your health and safety means a lot to me. I have been very worried about you lately. Please contact me soon and let me know how you feel.

Sincerely,

[Your Name]
